- > Power Rating: Max 30W

Hassle-free installation and user-friendly design

Multiple capacities allows placing objects of various sizes

Standard two year warranty,

The working principle of the UV sanitizer is in the radiation chamber and the ultraviolet radiation that prevents the growth of bacteria and viruses on the surface of objects and materials.

The source of radiation is the germicidal UV light that efficiently targets pathogens

| MODELS        | CAPACITIES | DIMENSIONS (w x d x h) | WEIGHT (kg) |
|---------------|------------|------------------------|-------------|
| SANITIZER-60  | 60 liters  | 600mm x 300mm x 400mm  | 15 kg       |
| SANITIZER-250 | 250 liters | 600mm x 500mm x 1000mm | 35 kg       |
